# LEAGUE OF NATIONS CRUMBLING ISLE WITH 10,000 HAS VANISHED

## Brazil and Uruguay to Stand With Italy and Quit League

Both Countries Have Instructed Delegates to Withdraw If Italy Makes Such Decision

Disruption of League Seems Imminent.

(By The Associated Press)  
GENEVA, Sept. 6.—Efforts of the League of Nations Council to reach some agreement on the Greco-Italian crisis constituted the reason for the sudden decision to hold no session of the assembly today.

Lord Robert Cecil and other members of the Council desire to go before the assembly with something definite, for they realize that if the world nations met together as a number before tangible results were obtained there would doubtless be a forensic explosion on the floor.

The assembly, as a whole, is looking to the Council to take some action on the Italian question and the council as the executive body is concerned above all things with saving the League of Nations and preventing any dangerous split.

No meeting of the council was held today but its members met privately in attempts to reach a tentative accord with regard to procedure and the attitude to be adopted at the informal meeting which may be convened this evening. There has been extensive telegraphing by all delegations to their home governments asking definite instructions on the great question of the day which has removed all interest from the other problems, figuring on the agenda of the conference.

M. Politis, former foreign minister under Venizelos and chief representative of Greece here said today that the tension seemed to have lightened somewhat but he added the problem of the Italian occupation of Corfu offered supreme difficulty.

Much interest is felt here in possible action by the council of ambassadors in Paris to which Greece has appealed.

(By The Associated Press)  
PARIS, Sept. 6.—Brazil and Uruguay are said to have instructed their delegates at Geneva to make common cause with Italy and withdraw from the League if she does, asserts a Milan despatch to *Le Matin*.

### WILL STAND BY ITALY

(By The Associated Press)  
MONTEVIDEO, Sept. 6.—In connection with advices from Rome that Uruguay and Brazil have decided to instruct their representatives at Geneva to stand with Italy and abandon the League of Nations if she decides to do so. The Uruguayan foreign minister authorized the following statement:

"Although, after exchange of ideas with the president of the Uruguayan foreign office has been in cable communication with the Uruguayan delegates on the League of Nations council Senor Guani recommending him to lend the most deferent attention to the argument of the Italian thesis. No information as indicated in the advices has been sent nor has the Uruguayan attitude been compromised in the manner stated."

### ITALIAN TROOPS MOVE

(By The Associated Press)  
LONDON, Sept. 6.—A Central news despatch from Rome say that reports are current there that Italian forces have occupied the island of Melilla Sano and Mathraki, northwest of Corfu.

### SUSPECTS ARE ARRESTED

MILAN, Sept. 6.—The Popolo Italea, organ of Premier Mussolini has received a despatch from Trieste saying "Telegrams from various sources confirm the news that the Greek government is on the track of the assassins of the Italian mission. Many suspects have been already arrested along the Greco-Albanian frontier and among them are two of the assassins. The authorities are hunting the others."

(By The Associated Press)  
ATHENS, Sept. 6.—The Greek fleet has received orders to return to the Gulf of Volo to avoid contact with the Italian fleet it is learned here.

(The Gulf of Volo, an arm of the Aegean sea is on the east side of the Greek peninsula and about 90 miles north of Athens.)

CORFU, Sept. 6.—The Italian occupying authorities have ordered the confiscation of the arms of all nationalities resident here, including members of the Italian colony.

British subjects may store their weapons in the consulate.

The city is quiet but inhabitants are wondering how long the occupation will last.

No Greek ships are arriving or departing and it is impossible to proceed to Athens.

### REIDSVILLE MINISTERS OPPOSE STREET DANCE

(Special to The Bee)  
REIDSVILLE, N. C., Sept. 6.—The local Ministers' Association has frowned upon street dancing and has expressed its disapproval of a street dance which was to have been given here today and tomorrow during a rally of farmers. The ministers in their resolution take the view that the night programme for the celebration which included the street dancing "does not represent the Christian sentiment of the town."

TOBACCO CO-OPS ARE  
ENJOINED BY COURT

(Special to The Bee)  
GREENSBORO, Sept. 6.—This afternoon Judge George W. Connor issued restraining orders enjoining four members of the co-operative tobacco association residing in Nash county and four members residing in Martin county from selling their tobacco unless he hears the cases returnable before him on the 26th of September at 10 a.m. when he will hold a term of the Nash county Superior court.

In the meantime the plaintiff association must give bond to cover the costs and to indemnify the members against loss by reason of delay. L. L. Davenport of Austin and Davenport, attorneys of Nashville, appeared for the association in the cases from Nash county.

Marvin H. Grey has returned from a three weeks' visit to relatives in Norfolk and Portsmouth.

## 1924 LEGION MEET Danville Buddies Balk Petersburg On Convention Floor

State American Legion Convention to Be Held Here This Time Next Year—Cockade City Makes a Game Fight But Is no Match for Strategy of Local Delegation.

The Danville delegation to the annual convention of the state American Legion was held at Fredericksburg accomplished what they set out to do and returned to Danville last night with next year's convention definitely cinched.

The 1924 convention will be held here thirty days before the opening of the national convention, the specific date to be fixed by the local post which will be the host. In all probability it will be held about this time. It became known this morning that it has been decided to bring to Danville as the principal speaker General J. J. Pershing, commander-in-chief of the American forces and that no time will be lost in endeavoring to secure from him an engagement.

Stories told by Danville's official representation at Fredericksburg confirmed press reports that the big fight before the convention was where the legion should meet next year with Danville and Petersburg as the rival contenders. Only by clever work did the Danville delegation lead a successful counter-attack on the hosts from Petersburg and the final barrage of rhetoric which was poured from the masked batteries set up by the Cockade City was rendered useless by the strategy of the home boys who had consolidated their position before the flood of oratory was let loose.

City Auditor R. P. Moss who was a member of the committee appointed to designate the time and place of the next meeting said today that the committee with the exception of one member on Danville as the next meeting place. When the Petersburg heard of that decision they changed their tactics from those of (Continued on page three)

## Danville Fails To Wins Health Center

Telegram From Courtenay  
Dinwiddie Says Rutherford County Tennessee  
Was Selected for Demonstration Centre.

Danville has lost the Child Health Demonstration centre which City Health Officer R. W. Garnett has worked ardently for and which he hoped would be a means of expanding largely the work of the city health department.

Enquiry made by The Bee in New York today revealed that Courtenay Dinwiddie had today sent a telegram giving the decision by the Child Health Association to Dr. R. W. Garnett and on being requested this afternoon Dr. Garnett gave out the text of the message which awarded the rural demonstration centre to Rutherford county, Tenn., and the urban centre to Athens, Ga.

The text of Mr. Dinwiddie's message follows:

Rutherford county Tennessee, selected for rural demonstration centre. Athens, Ga., selected as urban centre after closest possible race. Regret Danville does not get demonstration centre. Letter follows:

The news came as a great disappointment to Dr. Garnett who said this afternoon that he awaited eagerly the letter which is following and which is expected to assign reasons for Danville failing to win the choice.

Dr. Garnett explained that a last minute decision had been reached by the National Child Health Association to divide the two centres and instead of grouping them as urban and rural it had been thought better to separate them and to establish one health centre in city and the other in a rural community.

The city health officer had high hopes of Danville being selected. Mr. Garnett had practically assured him that he would recommend Danville and it had been felt that his recommendation would be final.

The fact that agents for the organization had made two visits to Danville and had held long conferences with city officials and civic leaders who complied with all requests had raised the hope that this city would be finally determined upon. As Dr. Garnett viewed the matter the five year experiment would have meant a tremendous benefit to the city at no cost though it had been made plain that at the termination of the experimental period Danville would be expected to assume the maintenance of the undertaking.

Marvin H. Grey has returned from a three weeks' visit to relatives in Norfolk and Portsmouth.

Chevrolet prices greatly reduced.

## DANVILLE CLUB STANDING LEFT UNCHANGED

(Special to The Bee)  
GREENSBORO, N. C., Sept. 6.—Directors of the Piedmont League in session here this afternoon decided not to take any further games from the Danville club. The present standing remains as official.

## Garvey Bail Order Cabled By Court

NEW YORK, Sept. 6.—After almost three months in the Tombs since his conviction in the Federal District Court of using the mails to defraud negro investors in the Black Star Steamship Company, Marcus Garvey has obtained a court order for release in \$25,000 bail, pending appeal.

George Gordon Battle was retained by Garvey specially for this matter after repeated attempts before several Federal judges for release in bail had failed. Judge Julian W. Mack, now in Palestine, cabled the order, on recommendation of United States Attorney Hayward.

Garvey had not given bail last night. Mr. Battle said he had been trying several days to obtain it. This indicates Garvey's funds may not be so plentiful as was rumored. Garvey to Judge Mack sentenced Garvey to serve the maximum, five years, in Federal prison, and fined him \$1,000.

(By The Associated Press)  
HARRISBURG, Pa., Sept. 6.—Anthracite miners, operators and officials of the miners' union today resumed conferences with Governor Pinchot for discussion of terms of settlement of the differences which caused suspension of operations in the hard coal fields September 1 and adjourned at 1:50 until 2:30 this afternoon. Leaders of both sides reported little change in the situation.

JOHN M. CHANDLER, SALESMAN  
OF DURHAM, IS FOUND DEAD

RICHMOND, Va., Sept. 6.—John M. Chandler, of Durham, N. C., traveling salesman for the Watkins Cottrell Hardware Company of this city, was found dead this morning in a room in the Richmond hotel. Coroner Whitfield said that death was due to hemorrhage of the lungs. Mr. Chandler was about 50 years old was lying on the floor near his bed in his night clothes and had apparently been dead six hours or more. The body was shipped to Durham this afternoon for burial. Mr. Chandler traveled for the Atlas Powder Company before becoming associated with the local hardware house.

E. J. Saari for several months executive secretary of the Young Men's Business Club and who recently was completed his course at Danville because the climate here was not beneficial to wife who was ill, had written here saying that he is now located in Rio, Wisconsin and is engaged in the pickle business. He expects to stay there though he says there is the possibility of his entering business this winter in Minneapolis.

The superintendent of public utilities has had printed the specifications for the city water works improvement and bids will be advertised for within the next few days.

Interest in this section grows in the calamity which has befallen Japan as result of the increase in the number of people related to residents in this section known to be in the devastated area. Besides those already listed Rev. and Mrs. T. E. Peters of Kentucky today evinced some disquietude over the fate of Dr. S. B. Fulton, president of the Presbyterian Theological Seminary at Robe, where he has been for forty years. Kone is beyond the range of damaged according to press reports, but Peters said that he frequently toured Japan and the disaster may have found him in the devastated region. Mrs. Fulton is an aunt of Mrs. Peters. Their son, George Fulton, is also a missionary in Japan but his whereabouts are not known. They have not heard from either directly or indirectly since the catastrophe. Mrs. Miriam Deewater, a cousin of Mrs. W. W. Anderson of this city, a niece of Dr. S. T. A. Kent of Ingram, and a connection by marriage of W. R. Fitzgerald, has not yet been heard from. Local relatives were not quite sure where she and the Rev. Mr. Deewater are located at the present time. She entered missionary work about three years ago. So far accounts from Japan have indicated that mortality has not been high among those engaged in missionary work.

Street car service in North Danville was suspended for a brief interval last night about eight o'clock when the trolley wire at the corner of Church and North Main streets broke. A repair man hastened from the car barns and spliced the cable.

## COMES HERE Direct Cables Give a More Accurate Account of Quake

Yokohama Engulfed and Other Cities In 100-Mile Radius Suffer Severely, 70 Per Cent. Being Destroyed.

(By The Associated Press)  
The terrible sweep of the Japanese earthquake is being disclosed in direct cables and wireless messages from Iwaki the radio station connecting Tokio, Nagasaki and other points contiguous to the devastated region.

Yokohama has been literally engulfed, the area of destruction covering not only the city itself but a zone more than 100 miles square including Tokio and four other large cities. This is one of the most densely populated sections of Japan with 7 millions in the area.

A direct message from the Iwaki station with which Tokio has established carrier connection said the Japanese home office announced 30,000 dead at Tokio, 100,000 injured and 150,000 homeless. Osaka cables that the great port of Yokohama is totally destroyed and that only one-fourth of the city of Tokio remains. It estimates that 70 per cent. of the cities and towns in a radius of 100 miles of Yokohama and Tokio are destroyed.

Order has been restored in Tokio where thousands of homeless are encamped in parks and other open spaces. The government is feeding them scanty rations.

There is no news from the Bonin islands and catastrophic changes there are feared.

### MONEY IS SAFE

(By The Associated Press)  
OSAKA, Sept. 6.—All money in the Bank of Japan's vaults was saved from destruction in the fire which followed the earthquake and tidal wave. It is not known today.

A recapitulation of the quake and fire today showed Yokohama as its centre extending North and South 100 miles and 140 miles East and West from that city. Yokohama, according to reports received here was totally destroyed and only about one-fourth of Tokio remains.

(By The Associated Press)  
TOKIO, Sept. 6.—(Delayed) Twenty-seven new shocks were felt during the night but authorities today expressed the view that no further destructive ones were likely. Occasional outbreaks of fire lit up the sky. Splendid order is maintained in the affected area. Temporary lighting systems have been established where thousands are encamped. The army was restoring the means of communication.

(By The Associated Press)  
TOKIO, Sept. 6.—(Delayed) Twenty-seven new shocks were felt during the night but authorities today expressed the view that no further destructive ones were likely. Occasional outbreaks of fire lit up the sky. Splendid order is maintained in the affected area. Temporary lighting systems have been established where thousands are encamped. The weather remains warm and bright.

(By The Associated Press)  
PEKING, Sept. 6.—The police of Chihab at the northeast corner of Tokio, report a new island off the Izu peninsula while they say the island of Oshima which contained an active volcano is invisible and it is feared to have gone down with its 10,000 or more inhabitants.

Consul Dickover further reported that about 2,000 foreign refugees had arrived in Kobe from Yokohama and Tokio and that several hundred were Americans.

The total enrollment of city school children in the public schools yesterday was 3,916, according to figures obtained from the office of Superintendent W. C. Griggs this morning. Last night all of the schools had been heard from with the exception of Monticello colored school in North Danville. The missing school with 123 pupils was recorded today and these figures added to the total available last night 4,747 brought the total registration up to 3,916.

The enrollment by schools is as follows:

High School	655
Rison Park School	748
Robert E. Lee	518
Belleme	657
Stonewall Jackson	366
C. E. Hughes	45
Westmoreland	458
Arlington	215
Monticello	129

## DANVILLE SCHOOLS HAVE AN ENROLLMENT OF 3,916 PUPILS

The total enrollment of city school children in the public schools yesterday was 3,916, according to figures obtained from the office of Superintendent W. C. Griggs this morning. Last night all of the schools had been heard from with the exception of the Monticello colored school in North Danville. The missing school with 123 pupils was recorded today and these figures added to the total available last night 4,747 brought the total registration up to 3,916.

The school board has decided definitely to utilize the Hines building for high school classes and changes are now being made in the structure to make it suitable for school work.

Because of the size of the rooms only small classes can be assembled, but there are many such classes this will not prove a disadvantage. It is believed that several classes of the commercial department will use the building.

There will be some changes in the enrollment figures as announced, as there will be some losses among children enrolled but too young to enter this year and there will be some admissions as children return from vacation and are entered.

The school board has decided definitely to utilize the Hines building for high school classes and changes are now being made in the structure to make it suitable for school work.

Because of the size of the rooms only small classes can be assembled, but there are many such classes this will not prove a disadvantage. It is believed that several classes of the commercial department will use the building.

Red Cross Looks To Danville To Give \$1,300 For Japanese Relief

Rev. J. Callaway Robertson, chairman of the Danville chapter, American Red Cross today received a letter from headquarters in Washington asking Danville's quota of the five million dollar Japanese relief fund of \$1,300.

The organization has subdivided the various district quotas into smaller ones and every chapter where there is an established chapter is to receive a letter today assigning to it a total to be collected.

Rev. Mr. Robertson's appeal

## SENATOR SMITH WILL ADDRESS FARMERS HERE

Announcement was made here yesterday evening by E. L. Walton that Senator E. D. Smith, of South Carolina, would come to Danville on Wednesday next, September 12th, to make an address on cooperative marketing. The address will be made in the Ridge Street tabernacle at eleven o'clock. Mr. Walton said that the members of the association and those who are not would be welcomed to the meeting. Director W. R. West, of Henry county, will introduce the speaker.

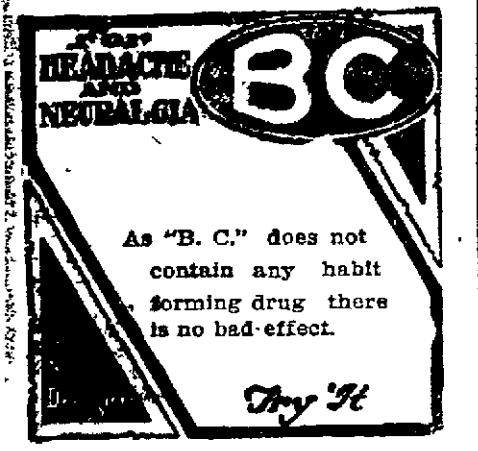

The meeting will be well advertised throughout the district and it is believed that many farmers will come to this city to hear the speaker.

Senator Smith has taken a great deal of interest in the co-operative marketing movement, both among cotton and tobacco planters and he has been a frequent speaker to farmers in the last several months. His addresses have aroused much enthusiasm and have furnished plenty of food for thought since he has made a thorough study of this subject.

(Special From Tobacco Growers News Bureau.)

RALEIGH, N. C., Sept. 5.—United States Senator E. D. Smith, noted as a founder of the Farm bloc in Washington and as an advocate of cooperative marketing, will address the Tobacco Co-operators of Virginia in Danville next Wednesday, September 12, at what promises to be the largest cooperative meeting held in the Danville tabernacle since Aaron Sapiro of California started that wave of cooperation which claims 21,000 farmers in Virginia and the Carolinas as members of marketing organizations.

More than twenty thousand members of the association have been notified of the coming of the South Carolina Senator by posters mailed from Raleigh headquarters to five hundred locals in Pittsylvania, Halifax, Henry and Patrick counties in Virginia and to the Carolina counties across the border, and there is no doubt that Danville will be the mecca of a great many organized tobacco growers next Wednesday.

### Camphor Water For Eyes

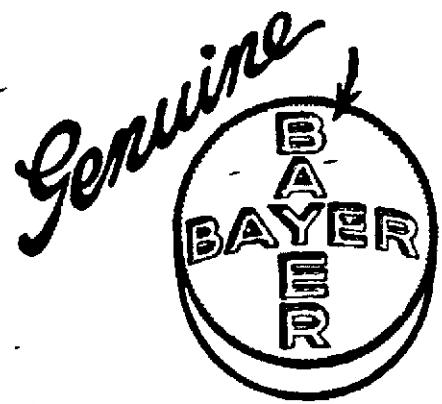

Nothing has the quick action of simple camphor, witch hazel, hydrastis, etc., as mixed in Lavopak eye wash. One small bottle Lavopak helps any case weak, strained or sore eyes. Aluminum eye cup free. J. C. McFall's Drug Store and druggists everywhere—adv.

### Don't Have Goitre

Virginia Lady Tells of Relief  
Was Never Worn Short or Breath  
and Heart Bad. Cured 20  
Pounds. Liniment Used.  
Mrs. G. W. Harrison, Shawsville, Va., says she will gladly write how she was relieved of her goitre and its terrible symptoms by Sorbol Quadruple, a stainless liniment. Get free information from Sorbol Company, Mechanicsburg, Ohio. Sold by all drug stores. Locally at Clinton Drug Co.—adv.

## Coolidge's Kin Joins 5-Sided Fight For Senate In Vermont

IN THE RACE FOR VERMONT'S SENATORIAL VACANCY: FROM LEFT TO RIGHT: JUDGE S. WILSON, PARK H. POLLARD, MARSHALL J. HAGGOOD, JOHN W. REDMOND, AND PORTER H. DALE

(Special to The Bee.)

BURLINGTON, Vt., Sept. 5.—President Calvin Coolidge will find it difficult to take sides in the race now on for the seat of the late U. S. Senator William P. Dillingham of Vermont.

The Democratic nominee is Park H. Pollard, the president's first cousin while the leading Republican candidate is Congressman Porter H. Dale, close personal friend of the president, who dug up the presidential path to the Coolidge farmhouse at Plymouth in the early hours of Aug. 3, and witnessed the president's father administer the oath of office at the unique inauguration.

The chief issue of the campaign

will be beer and light wines. Pollard is all out and out wet; Dale is a leading dry.

Governor Redfield Proctor has called for a special primary on Oct. 1.

The Democratic State Committee has chosen Pollard as the party candidate for both the primary and the general election coming in November.

The Republicans have four leading candidates for the nomination.

But Dale, who resigned his seat in Congress to make the race is looked upon as the best prospect.

The others in the running are:

Judge Stanley C. Wilson of Chelmsford, a former teacher and newspaper man, now on the Vermont bench.

Marshall J. Haggood of Peru, a

land baron and friend of the late Theodore Roosevelt.

Attorney John W. Redmond of Newport, a corporation lawyer, who favors modification of the Volstead act.

Although the Democrats have never won a major election in Vermont, James E. Kennedy, prohibition director under Wilson, running on a wet platform, gave the Republicans a close call last fall when he ran only 1,500 votes behind Frederick G. Fleetwood, Republican, in a congressional election.

Fleetwood has thrown his support to Pollard. Some political wiseacres think that the miracle may finally happen, and rock-ribbed Republican Vermont may turn Democratic.

### TOBACCO SELLS WELL ON MARKET

KINSTON, Sept. 5.—Three-fourths of the tobacco sold here this fall will go abroad, to every country on the globe almost. It is impossible for the "big companies" to "roll" the growers of their product, even if they wanted to. Regardless of one theory, of supply and demand governs the price situation in the eastern Carolina markets. These were statements today by Leslie D. Worthington, late president of the local tobacco board of trade.

Worthington said one of the largest of the foreign companies was buying heavily, almost frenziedly.

"Nobody knows why. Apparently they have discovered a big 'hole' somewhere, and anticipate a heavy demand from that secret quarter," he declared. "I imagine the other 'big fellows' would give a fortune to know what it is all about. The competition between the leading exporters is keenest that is generally believed, much keener."

Mr. Worthington asserted that the foreign manufacturers need tobacco the price for the raw product does not give them great concern. "The big British concerns seem to consider fairness as the key-stone of their business policy. If they needed leaf surely enough, I believe their buyers would not haggle over paying a dollar a pound for the stuff as it comes off the farms. Instead

of 'adroit manipulation' they would hand over the money without question. Somebody has to pay, of course and I assume that it is the foreign consumer. You Englishman in England, Australia, Singapore, Jamaica and elsewhere is a more discriminating smoker than the American. The cost would not be tolerated over seas. Notice in the local auction markets that large domestic buyers seek out medium and poor grades."

British needs a fairly large amount of eastern Carolina tobacco this year, Worthington believes, and for that reason prices, particularly in this immoderate section, are running fairly good. Compared with other selling centers the Kinston market is unusually strong. Quality of the local crop is superior to that in the belt as a whole. "If 30,000,000 pounds of tobacco are marketed here this year 22,500,000 pounds will go abroad," Worthington believes. "China will consume a lot of it. The British Isles, the continental countries, the anti-podeans, Canadians, and others will smoke the best of our local product."

## ANXIETY IS FELT FOR RELATIVES IN QUAKE ZONE

Considerable anxiety is felt by relatives here for the safety of Rev. and Mrs. Deerwater, Baptist missionaries, who were at last reports stationed in the devastated areas of Japan and from whom no word had been received since the disaster. The Deerwaters are natives of West Virginia. Mrs. Deerwater being the daughter of Dr. W. L. Wood, of Huntington, W. Va. Relatives here are R. Bailey, an uncle, and Mrs. W. W. Anderson, a cousin. Mrs. Anderson stated at a late hour last night that no report of any kind had been received from them and it was reasonably certain they were in the area of the quake.

### ROCKY MOUNT NEWS

ROCKY MOUNT, Va., Sept. 6.—John Saunders Kale, age 72 years, son of the late John S. Kale and Margaret Saunders, died Monday morning of apoplexy, in the city hospital of Roanoke, where he had been a patient for several months. He was educated at Emory and Henry College and was a civil engineer by profession. He was county surveyor for a number of years. He married Miss Willie Wool of West Virginia, who preceded him a number of years ago.

## RAINS DELAY MARINE CORPS MARCH IN STATE

## Explosion Toll Reaches Four

PULASKI, Sept. 6.—Four men, William Byrd, 37; Daniel Barlow, 32; both white; Ben Ricks, 37, and Judge Johnson, 31, both colored; are the toll of death as a result of the explosion Monday night at the blast furnace of the Pulaski Iron Company. All deaths were due to burns. Byrd living only a few minutes, while the other three lived until after midnight. Of the forty men on the night shift, about fifteen were more or less injured, the more seriously hurt being Fay Hall, C. H. Booth, both white; Hes Mowers, Will Wilson, and Wm. Patterson, all colored, though none are considered fatally injured. Each of the four men killed leaves a wife and three children.

The entire top of the furnace, including the bell, hopper and top deck, buried over a considerable area as a result of the force of the explosion, entailing a damage which will cost more than \$100,000 to repair. W. C. McKee, furnace manager, assigns as a cause the collapse of the furnace lining, which with the wind being blown in caused a slip of the furnace resulting in the explosion. Owing to the company's electric lighting system being cut out as a result of the explosion, it was impossible until this morning to make sure of the number of possible deaths and injuries resulting though were used in searching the debris in the rescue work.

It is presumed that the plant will be restored, but no definite announcement can be made concerning the company's intention until the arrival of Percival Johnson, the president, from Philadelphia.

## Farmers Meeting On In Reidsville

REIDSVILLE, N. C., Sept. 6.—About 1,500 farmers of the surrounding section are in Reidsville today for a two-day "get-together" meeting, the purpose of which is designed to get the farmers to trade here. No fixed program has been prepared but informal events are being held. G. W. Glidewell addressed a large group of the farmers today. Prizes are being offered by various merchants for winners of various agricultural products placed on exhibition here and some unusually fine specimens of agricultural products are seen. The farmers will remain through tomorrow.

## RUHR MINING TROUBLES END

ESSEN, Sept. 6.—Mining difficulties in the Ruhr apparently have been settled without the necessity of intervention by the government. Work has been resumed in all mines in Essen except one and most of the others the miners are going back to work on their own accord.

They accepted the terms of the employers, which are now one million marks per week with weekly readjustments to provide for fluctuations in the value of the mark, for a six hour day under ground and eight hour day above ground. The French authorities stipulated an eight hour day under ground a ten hour day above ground with twenty per cent increase. The workmen, however, found the terms of the employers more enticing and few of them went to work for the French.

## DICKOVER IS DEAD

(By The Associated Press)

WASHINGTON, Sept. 5.—The State Department was advised tonight in a wireless from Consul Dickover at Kobe that Elizabeth Dodson of Kings, N. C., was killed in the Japanese earthquake.

Much of the consul's message gave information contained in dispatches received from him during the day. Yokohama, he said, was "completely destroyed by earthquake and fire."

Owing to the destruction of the city, and the lack of food and water, the message added, all foreign residents were proceeding to Kobe.

"The President's Jefferson," said the message, "will leave today with about the hundred deutsche Americans and aliens who will need assistance in Seattle."

The dispatch was dated September 6.

## VICE CONSUL ESCAPES

(By The Associated Press)

LONDON, Sept. 6.—A dispatch to the Daily Mail from Peking dated Wednesday quotes refugees from Yokohama arriving at Kobe as saying that vice consul Wardenell of the American consulate in Yokohama escaped, but that the whereabouts of three other vice consuls was unknown.

The dispatch added that railway service between Kobe and Yokohama had been restored.

The dispatch says another division of American torpedo boat destroyers left Chinese waters for Japan Wednesday morning. It caused a small party from the Rockefeller Hospital to search for Mrs. Marion S. Halsey, secretary, Mrs. Eva M. McMillan, Registrar and Dr. R. McCullough and Mrs. McMillan of the Rockefeller.

The Japanese in Pekin is quoted as having announced that all money contributed by Chinese for relief work would be used exclusively for Chinese in Japan.

## New Penetration Treatment For Pyorrhoea Cases

Dentists say that a great majority of people either have pyorrhoea (Bigs) or rest on pyorrhoeal tendencies or blood-curdling gums. "Inflamed or loose teeth" is a bad omen. Pyorrhoea not only affects the gums and teeth, but also the general health, as the pus, which is very noxious, is absorbed into the system, causing serious stomach trouble, the results of which are sometimes fatal.

You can now treat pyorrhoea at home and get relief with formula known as *Crescent*, the new discover, that, through penetration, carries a powerful but harmless germ-destroying, tissue-preserving agency, known and used by dentists for years, is the basis, right to the root of the teeth, killing the pyorrhoeal germs, making the gums healthy, tightening up and preserving the teeth, healing pus pockets, reducing pain and destroying odors caused by decayed teeth.

*Crescent* is pleasant to use, and should be used by every one who wears a plate, as it keeps the gums firm and healthy and free from pain. \$1.00 at your druggist and your money back if it fails. *Crescent* Co., Atlanta, Ga.—adv.

## Rufus Martin Who Killed Wife Gets Five-Year Term

Corporation court opened this morning with the trial of Frank Trippe, 21, who is charged with his second violation of the state liquor law, a felony. He was specifically charged with the sale of a pint of liquor. The case resulted in a hung jury, the jurors being dismissed and the case sent on to the next court.

The trial of L. H. Brooks, Pleas Womack and Frank Flood indicted for failing to bury a negro infant and which was set for today has been continued for the term owing to the failure to appear of a vital State witness. The colored undertaker was indicted following the finding of a small body in the Ficklen tract. The defense will be that the authorities were mistaken in their identification of the remains and that Brooks had buried the child he is charged with failing to inter.

The warrant charging J. W. Via with maintaining a nuisance by failing to turn on the water in an apartment rented by Julian Fretwell has been thrown out of court as constituting no violation of a State law. Counsel for Via demurred to the warrant and it was sustained. An unlawful defendant action is still pending in the Civil Court.

It was indicated when court recessed for dinner that the criminal dock would be wiped clear by tomorrow evening.

One of the cases set for hearing today is an unusual one and may prove the culmination of an investigation made into the alleged failure on the part of colored undertakers to bury a child committed to the man for professional service. L. H. Brooks is indicted with Frank Flood and Pleas Womack. The offense charged is a misdemeanor under the law. The defense will be that the finding of the body of a child on the Ficklen property resulted in erroneous identification and that Brooks did bury the body.

Judge Withers held a night session of court last night in order to dispose of the Rufus Martin murder case. Martin who was charged with shooting his wife, Lula, to death last May, was found guilty and sentenced to serve five years in the penitentiary. Martin's trial began at four o'clock and continued until ten o'clock last night. The state contended that the murder was willful and relief chiefly on the evidence of the coroner. Lula Martin was slain by a pistol bullet fired in the back of her head and by the evidence of Sally Terry, a negro, who witnessed the killing. The defense sought to show self defense and that Lula Martin proceeded against the Domestic Relations court for an affair with Tom Haynes had fumbled for a weapon when Martin approached her on the street and asked her if she was going to live with him. Sally Terry was not shaken in cross examination by H. T. Williams who was appointed by the court to defend the negro who had no funds to procure counsel, but she clung to her story and said that after Lula Martin had told her husband that she did not intend to live with him any more he pulled out a pistol and not only shot her standing but put more bullets in her body as she lay lying on the sidewalk.

## RUHR CONFLICT FACES AN EARLY TERMINATION

BERLIN, Sept. 5.—While Chancellor Stresemann still is awaiting French reaction to his speech at Stuttgart last Sunday there is a strong belief in Bourse and financial circles that the Ruhr conflict is facing an early and endorsed termination. Whatever effect the chancellor's pronounced shift in the direction of a French rapprochement may have had on Premier Poincaré, there is a growing conviction that Germany is no longer capable of paying the terrific price involved in maintaining her passive resistance.

Aside from gradual disintegration, which is daily becoming more conspicuous throughout the Ruhr and the Rhineland, the nation's finances are lapsing into such chaos that further indulgence in the luxury of dumping uncounted billions into the battle line the Ruhr and the Rhine is becoming an ocean of wildcat currencies of official and private origin, all of which must be eventually remedied. As these two are nominally Germany's most productive sources of tax revenue, the government has virtually paid double price for keeping them inactive through eight months of passive resistance, in that it has been deprived of enormous tax receipts from the most prolific producing areas.

Aside from the financial considerations involved, the situation in the Ruhr apparently also is drifting in chaos due to the disorganization of food supplies, wage disputes, and communistic machinations which threaten to make the army of miners and steel workers restive.

## MISSION IRISH ARE SAFE

(By The Associated Press)

NASHVILLE, Tenn., Sept. 5.—All Southern Presbyterian missionaries in Japan are safe according to a cable received today by the church executive committee of foreign missions from L. C. Smylie, a missionary dated Kuremawa and reading: "All missions safe. Notify families. Missionaries of the Southern Presbyterian church and their wives in Japan number 50 persons representing various Southern States. Among the number is the Rev. L. S. McElroy, Jr., whose wife formerly Miss Alice Wilson, is a niece of the ex-president.

## MORNING COTTON LETTER

(Courtesy Thompson & McKinney)

NEW YORK, Sept. 6.—Liverpool comes wild this morning, showing that we have got to revise our ideas of the market. So far there has been little speculation, now it has started. The crop is as much below world norm that the trade is alarmed and panic is in the air coming in will have a decided effect on values. It is impossible to say limits now, which cotton will sell before spring. Still, as the statement read, we seem 20 cents under existing conditions represents cheap cotton if the crop is going to be what it is. Washington indicates we could buy cotton on all set-backs.

## ANXIETY IS FELT

(By The Associated Press)

NASHVILLE, Tenn., Sept. 5.—Anxiety is felt in this section of the state regarding the safety of the Rev. and Mrs. L. S. McElroy, missionaries of the Southern Presbyterian church at Marugane, Japan, from whom no word has been received by relatives since the earthquake.

Mrs. McElroy is a daughter of Joseph R. Wilson of Baltimore and niece of former President Woodrow Wilson, and also of Mrs. Frank T. Hodgson, of Clarksville.

## FATHER OF AUSTRALIAN TENNIS STAR KILLED

(By The Associated Press)

MELBOURNE, Australia, Sept. 5.—The father of Jack B. Hawks, the Australian tennis star now in the United States, was killed in the Japanese earthquake, a telegram from his wife in Tokio, received by friends today said. It read: "Dad killed, lost everything, am stranded." Russell Keays, prominent Australian tennis player is also reported to have been killed.

## AMERICA'S EMISSARIES IN JAPAN

This is the official American diplomatic group in Japan, with which the State Department at Washington is frantically trying to re-establish communication. The picture was snapped aboard the Admiral Liner President McKinley in Yokohama Harbor, at the welcome for the new U. S. minister. Left to right, the men are: Lieutenant Commander Hulins, assistant naval attache; Hugh H. Wilson, chargé d'affaires at the American embassy; Lieutenant Colonel Charles Burnett, and Cyrus E. Woods, newly appointed ambassador to Japan.

## Ticker Talk

(Thomson and McKinney)

Negotiations between anthracite miners and operators again reach deadlock.

Bank of England rate four per cent unchanged.

Standard Oil of Calif. reduces gasoline two cents a gallon throughout territory.

U. S. crude oil production week ended September 1, 2,261,800 barrels daily increase 19,400 over previous week.

Baldwin's August output approximated \$12,000,000, a high record.

Attorney general gets order to show cause why public service railway should not be compelled to resume trolley service or as alternative why receiver should not be appointed.

Britain will probably await text of agreement with U. S. before granting recognition to Mexico.

Syndicate offers \$55,000,000 six months six per cent Argentine government notes at 99 1/2.

Carloadings week ended August 25 reached new high record of 1,069,932, exceeding by 51,340, best figure touched in fall of 1920.

Cleett Deltanning quarter ended June 30 not after tax, depreciation and charges \$62,240 against \$35,048 in second quarter 1922.

John J. Watson, Jr., elected president of the International Agricultural Corporation to succeed Stephen B. Fleming, resigned.

S. S. Kresge August sales, \$6,398,151, increase \$1,216,071. Eight months \$47,993,748 increase \$10,722,582.

Average price 20 industrials 92.98, up .73, twenty rails 79.66, up .70.

## Norfolk Electoral Board Hands in Resignations

NORFOLK, Va., Sept. 5.—Norfolk's election scandal, which preceded the August 7 primary, when official ballots were found to have been taken from their proper place, resulted to-day in the resignation of all members of the City Electoral Board being accepted by Judge W. H. Hargrave, of the Circuit Court. New appointments are expected tomorrow.

At the same time the grand jury in Circuit Court was preparing to take up tomorrow any further testimony in the election case. Several hearings have already resulted in Gus Gardner, Norfolk man, being sentenced to six months for voting illegally and in a warrant being issued for S. A. Nippas, of Pittsburgh, whom it is charged, political factions employed to tamper with the election. Pennsylvania authorities have not yet permitted him to be brought back here.

Steady developments are said to be pending from the grand jury's session tomorrow. Commonwealth's Attorney Thomas H. Wilson, Jr., has intimated that evidence which he will present tomorrow to the grand jury may result in charges being brought against several prominent Norfolk men.

## DECLINE IN NUMBER OF "DEVIL'S GRIPPE" CASES

RICHMOND, Va., Sept. 6.—"Devil's Grippe" has passed the epidemic stage in Virginia, the State board of health announced today. In Hanover where the malady first appeared, and in Louisa, where over a hundred cases were reported two weeks ago, no new cases have occurred this week, while reports from other parts of the State show a decline in number of cases.

The State Board of health was adopted "Dabney's Grippe" as the official name of this malady, to which the name of "Devil's Grippe" was given by Dr. G. W. Dabney, of the medical faculty of University of Virginia, in report during its outbreak in epidemic form in 1888. This name has been popularly accepted.

Other names which have been applied to the disease are "epidemic transient diaphragmatic synæsthesia" used by the editor of the Journal of the American Medical Association in an article submitted by George Payne, Virginia epidemiologist; "influenza abdominal" and "disease saturnine," while "Payne's disease" is recognized by the research made in connection with the epidemic by Dr. Dabney has been suggested.

## STOMACH TROUBLE?

Take this Advice

Martha, W. Va.—"I was all run-down in health and was so weak I could hardly go. Had stomach trouble, gas would gather and my head ached. I would have to sit up in the bed at night and belch. My nervous system was all run-down too. It seemed I could not endure the least noise. I tried a good many kinds of medicine, but didn't get much relief until I began using Dr. Pierce's Golden Medical Discovery, Favorite Prescription, and Pleasant Pillers. Now, I can say I feel almost like a new person. I have also used the Golden Medical Discovery for throat trouble and found it good."—Mrs. Romilla Stephens, Rout 1.

You can put yourself in the pink of condition by obtaining Dr. Pierce's family medicinest in liquid or tablets, from your neighborhood druggist. Write Dr. Pierce, President Invalids Hotel, Buffalo, N. Y., for free confidential medical advice.—adv.

## Alabama Rivals In Foot Fall Field May Meet Again

ATLANTA, Ga., Sept. 6.—Recurring agitation for the resumption of relations between intrastate college football rivals in the south, where they were broken off when ill feeling was engendered, has met with considerable disfavor among some southern authorities who contend that the schools involved have made much necessary progress in the football world with the traditional rival eliminated from the list.

Interest is now focused on the Alabamians who are trying to bring together the University of Alabama and the Alabama Polytechnic Institute, better known on the field as Auburn. Athletic rivalries were severed in 1903, and despite frequent moves every now and again, little tangible progress has been made. Recently the Alabama legislature in its quadrennial session took cognizance of the situation and adopted a resolution that relations be resumed.

The resolution suggested that the two elevens meet in a post-season game, the proceeds of it to be used in erecting a stadium where they could play annually. The request of the assembly has been taken up by the heads of the two institutions, but nothing definite towards an ironing out of the old differences has resulted.

There was a time when the annual clash of these squads was Alabama's greatest gridiron battle of the year. The day saw a general reunion of the respective alumni. Each squad throughout its season was trained for this one game. There was always a certain amount of bitterness in the rivalry, and general melees between the opposing student bodies after the game were not unusual. The contention was the strife after the game caused the breaking of relations.

The fact, however, that neither squad attached much importance to any game except that with its ancient rival, and that it was willing to lose its full schedule if it won the big battle, now forms the basis of argument for those who would rather not see relations resumed. Under the old order of things neither school had much of a reputation outside of its section. The same applies to Georgia Tech and the University of Georgia, whose time-old rivalry reached the breaking stage in 1919.

Since these two schools severed relations, and when Auburn and Alabama split, they all began to give attention to every game. They have steadily built up a nationwide reputation. Their success on southern fields led to their venture into fields afar, and while neither has any string of wins to its credit from the eastern or western invasions, a better showing has been made year after year.

## CROP CONDITIONS IN OLD DOMINION

The week was very favorable for the maturing of corn and tobacco and both of those crops are in good to excellent condition and cutting or harvesting is now in progress. The weather has been quite favorable and general crop condition is good. Sweet potatoes and peanuts are good and a fair crop of apples of excellent quality is in prospect. Plowing has continued under favorable conditions and early grain is coming up in good stand.

Mrs. Romilla Stephens

### A THOUGHT

Lo, children are an heritage of the Lord; happy is the man that hath his quiver full of them.—Ps. 127:3, 5.

WHAT gift has Providence bestowed on man that is so dear to him as his children?—Cicero.

THURSDAY, SEPT. 6, 1923.

THE ISOLATIONISTS HAVE THEIR DAY.

The brotherhood of "Isolationists" will reach the seventh heaven of delight today as result of the news which comes from Geneva which virtually admits that the League of Nations has failed to function on meeting its first test. Perhaps they will be merciful enough to spare the country from the inevitable "I told you so," though that naturally is their innermost feeling. Still there is a depth of meaning in the opening paragraph of the Associated Press despatch from the seat of the League. "The Superstructure of the League of Nations . . . is imperilled," the despatch declares. That may be taken to mean that the League is still fundamentally sound. It would not be saying too much to declare that but for the policy of the isolationists and those who have attacked the League as economically unsound since its inception, the superstructure to-day would be intact. America's voice in the assembly of nations would have been clear and distinct and would have given such power to the international body that no single premier of a European state would have had the temerity to snap his fingers in its face in the manner which Premier Mussolini has done. Every motion through which the League has been put has evidenced a weakness directly traceable to the failure of America to be represented. The weakness to-day stands out as monumental. If the League cannot be of service in the present dispute how can it serve when graver and more complicated questions arise?

### BOOZE-CRAZY.

Twice as many Americans were driven crazy by liquor last year as in 1921. This is claimed by numerous insanity authorities, including Dr. Horatio M. Pollock of New York State Hospital Commission. It means that booze is steadily getting more poisonous, rather than that people are drinking more in spite of prohibition. The old-time rum-hound who "knew snakes" had it easy compared with the victim of bootleg hooch. Dr. John A. Houston, head of a State hospital for the Insane in Massachusetts, reports: "The patients who now come to us after acoholic drink have rendered the insane in a condition almost wholly different to that of patients whom we took in before prohibition. Our alcoholics to-day are in a much more serious mental condition and they are sickly than they were before. They do not know their surroundings and stare at us as though they had lost their minds. They are delirious and confused. They are not able to get along with other people and they run away if they can. It is claimed they are driven from Europe and are thirty in number."

### Scoop's Column

DRAKES BRANCH, Sept. 6 (Granville Wireless).—Life is made up of chances and opportunity and sometimes knock in unexpected places.

The occupants of a pal car on the Sunset Limited, out in the eastern country, were startled by the abrupt entrance of two masked bandits. Tense moments followed.

"Trow up yer hands," commanded the bigger of the two. "We're gonna rob all the gents and kiss all the gals."

"No, purdner," remonstrated the smaller one gallantly. "We'll rob the gents but we'll leave the ladies alone."

"Mind your own business, young fellow," snapped a female passenger of uncertain age. "The big man is robbing this train."

"Yes, We Have No Bananas!"

He: May I accompany you?

She: Got your piano.

"Nobody's worrying about the new charter, what we want is a little 'Old Charter' for Christmas," observes Old Timer as he sits on the cracker box and views the landscape o'er.

Strategy.

Three Scotchmen went to church, each clutching tightly the penny he intended to contribute when the plate was passed. Consternation reigned when the minister announced that this particular Sunday an effort was to be made to raise the mortgage and asked every member of the congregation to make a substantial offering.

During the prayer the Scots held a whispered consultation as to the solution of their dilemma and reached a satisfactory decision.

One fainted and the other two car-ried him out.

Moonshee.

He smuggled closer as he question-ed her: "Do you believe in Fate?"

She leaned back with a contented-sigh as she replied:

"I think what is going to happen will happen."

Pretty Soft!

When I worked at reporting,

From dawn till evening daws,

Around the town cawtoring,

A-hunting up the news,

(Social, criminal, sporting)

I sometimes got the blues

Sezz I: "I'm tired of working,

Until the moon is high,

A little job of shirking.

Me thinks that would be pie-

I have, in fact, a lurking

Wish to be a column guy.

To work about an hour,

On jest and jape and quip.

To have one brief brain shower,

Then give the job the slip,

And seek some leavy bower,

Never ever care a rip.

And after years of daily strife,

Of worry and of biz,

I got the chance and joy was rife,

To sit around and fizz,

So if you ask: Is this the life?

I'll tell the world it is!"

A Tale With a Snapper.

Teacher—"Willie, compose a sentence with the phrase "bitter end" in it."

Willie—"At our house we have a big cat and a bulldog; the cat ran through a hole in the barn and our bulldog bitter end."

Never blow out the gas. Tom Col-  
lin's thinks of the gas bill.

Webster's Academic Dictionary says: "Shiek—a venerable old man."

"Oh, Mr. Webster, you have no idea," snaps Gladys.

The Height of Ambition.

A flea crawling up an elephant's trunk with aspiration in mind

An unpolished people, thinks Mr. Bach, is one that doesn't have to pay too much rent.

No Reason.

Oh, who should be spirit,

Of itself be proud,

When he's swiped by every

Pioneer crowd?

### To Occupy New Home.

Dr. and Mrs. T. W. Edmunds are preparing to move into their handsome new country home on the Stokesland road on October 1st. The residence built of white brick and of impressive proportions has been in course of construction for several months and has been completed. The home stands on a slight elevation on the right just as the road enters the final straight stretch leading to Stokesland and is surrounded by grounds which Dr. Edmunds intends to develop.

Edwards—Hank.

Johnnie Edwards and Miss Myrtle May Hank, both of this city, were united in marriage last night at seven o'clock at the residence of Rev. J. Clyde Holland, on North Main street. The couple were accompanied by Herbert Corbin and Richard Bardsley. Mr. and Mrs. Edwards left on a motor trip to various southern cities, after which they will return to make their home in Danville.

Judge Harris Returns.

Mrs. W. T. Harris, Judge of the Juvenile Court, returned to the city yesterday after a month's vacation.

Bridge Luncheon.

Mrs. Miles Puryear entertained a number of friends at a bridge luncheon Wednesday morning in honor of her house guest, Mrs. Sydner De Beata.

Visiting In Yanceyville.

Mr. and Mrs. J. L. Hardin Lawson and Mrs. Hardin, Jr., of New York, and Mrs. Frank S. James, mother to Yanceyville today to be the dinner-guests of Judge and Mrs. Carr.

Informal Luncheon.

Miss Martha Gray entertained a number of out-of-town visitors at an informal luncheon yesterday at the country club. The guests were Misses Marian and Elizabeth Bynum, Miss Fay Huntley and Mrs. John Bynum of Winston-Salem, N. C., and their mother, Miss Jeanette Ashe, of Athens, Ga.

Mr. Armstead Shirley, of Greenwood, who is the guest of her grandfather, T. B. Fitzgerald, and Miss Elizabeth Martin were also present.

Returning From Orkney Springs.

Douglas and Frederick Sager, eldest sons of Dr. and Mrs. W. B. Sager, have returned to the city after spending the summer with their grandparents, Judge and Mrs. Newman, at Orkney Springs. On their return home they stopped a few days in Washington city with relatives, reaching home in time for the celebration of the ninth birthday of their sister, Mary Sager, which took place on Wednesday.

—Mrs. Annie Highfield has returned home after a pleasant visit to her sister, Mrs. Mrs. A. Hutchins at Winston-Salem, N. C.

Fred Farley, Jr., and Gene Highfield have returned from Winston-Salem, where they visited their aunt, Mrs. James Hutchins.

Miss Elizabeth Albright, of Spencer, N. C., is visiting Mr. and Mrs. Frank Owen, on Wyllie avenue.

—Miss Elizabeth Dudley is in Chatham today, attending the Spruce-Floyd wedding.

—H. B. Trundt has returned from Patrick Springs.

—Mrs. Herbert Martin has returned from Greenwood after a delightful

ful visit to Mr. and Mrs. Armstead Shirley.

Dudley Overby has returned from a business trip to Richmond.

—Mrs. Warner Wood, South Main street, has as her guest, Miss Elizabeth Murrell of Lynchburg.

—J. C. Hester returned from Richmond last night.

William Taylor will leave tomorrow for Washington and Lee University. Mr. Taylor is an honor graduate of Danville Military Institute, Class of 1922-23.

—Miss Sadi Rutherford of Richmond, who has been the guest of her niece, Mrs. Raymond Hall for several weeks, has returned home, accompanied by Mrs. Hall.

—Miss Helen Thomas of Chapel Hill, N. C., is the guest of Mr. and Mrs. W. H. Cobb, West Main street. Miss Thomas is a student at University of North Carolina.

—Mr. and Mrs. John Overby will leave for Virginia Beach, tonight.

—Mrs. B. V. Sanders and daughter, Miss Eve Sanders, of Athens, Ala., who have been the guests of Judge and Mrs. Walton Brown, left yesterday.

—Mrs. Ben S. Young and children have returned from Durham, N. C., where they have been the guests or relatives the past month.

—A. C. Conway and A. C. Conway, Jr., returned from Richmond last night.

**Balk Petersburg On Convention Floor**

(Continued From Page One) attraction to a demolition of Danville's claims and sent out an "S. O. S." to the home town for reinforcements. This was done after the Petersburg delegation had asked for a postponement by the convention on the report of the committee. It was a shrewd move to win time in order to marshal the additional forces. Yesterday they came—150 of Petersburg's most prominent business men and civic club leaders with 20 piece brass and on a special car. They had all sorts of banners and persuasive literature. The fight was waged on the floor of the convention with Post Commander Waverly H. Coughlin, Henry B. Watkins, secretary of the Chamber of Commerce, assisted by Rev. J. Cleveland Hall, D. D., prepared for all eventualities. The Petersburg boosters had as their shock troops community spellbinders who told of what the Cockade City had to offer. One of them referred to the ample facilities for a "pullman city" in which the legionnaires would repose at night. "Dick" Moss threw a hand grenade into this argument by saying that Danville was not offering the city's freight yards to the legion but several hundred good Virginia homes.

After these several clashes which were not without amusing features, the climax to the convention came with the recorded vote. Daaville won a splendid victory or on a ratio of 7 to 1.

The Danville delegation began its fight for the next convention on arriving in Fredericksburg. The whole town was placarded "Danville in 1924" and all the good looking girls of the community were corralled and prevailed to wear brassards bearing the same motto. Then there was a group of buddies skilled in the art of trading and they began the intricate task of securing pledges of various delegations.

The Richmond crowd fell for the flattering suggestion that Danville would support John J. Wicker, Jr., for state commander if their twenty delegates would reciprocate with a friendly vote for Danville in 1924 and by a fine nucleus of votes was secured. Lined up with Danville as result of this quiet work were Richmond, Norfolk, Roanoke, Lynchburg and Pulaski. The Danville boys made sufficient inroads into the Portsmouth delegation to split it. Chase City and Newport News went into the Petersburg column.

The convention was hailed by the gratification over the outcome of the

## Don't Be Afraid Of Ghosts; They're Your Best Friends

**A**MERICA will fare worse in "the next great war!" That's what Flora Marian Spore says ghosts of another world have warned her. She says she gets a few advance bulletins every now and then. Here are some of the things the ghosts say will happen:

America will lose the Philippines.

England will join Japan for everlasting rule of the seas. Germany and Russia will enter a treacherous alliance.

France will lose her power.

Turkey will rise only to fall again.

America will lose her pride and glory, though France and China will aid her.

Miss Spore says she asked the ghosts particularly about Italy and Greece, and they told her "there was nothing to worry about." The next great war, they tell her, will start in the Philippines.

BY JOSEPHINE VAN DE GRIFT (Special to The Bee.)

**NEW YORK, Sept. 5**—Afraid of ghosts? Well, don't be, says Flora Marian Spore, Greenwich Village artist.

"Ghosts," she adds, "are your best friends, and they get their greatest happiness out of helping folks."

Look what ghosts did for Flora Marian:

Took her out of Bay City, Mich., where she was following the same prosaic calling of dentist, set her down in Greenwich Village and taught her how to paint.

Told her they would teach her how to play the piano and write stories. Turned her into a prophet by whispering warnings of a world war and the fate of nations.

Took her on an ocean voyage and told her where and how she would meet the man whom she would some day marry.

Brought her back to New York and dictated movie scenario to her.

And now—a movie concern has taken over the scenario. If her screen tests come out all right, Flora Marian is to star in her ghost-written photoplay. Under the control of her "People," which is what she calls her ghosts, she will paket the sets for it.

And her "People" tell Flora Marian that her name will be known all over the world. Pretty good, don't you

think, for a girl who three and a half years ago was trying to keep people soothed, calm and cheerful in a dentist's chair back in Bay City, Mich?

"I don't believe in spiritualism," she says, "and I think that most of these table rappings are silly. I'm not smart and when I try to write or paint through my own efforts I can't do a thing."

"But my 'People' tell me that after they die they lose all jealousy and that their greatest joy is in helping people back here on earth. The reason they can't get through to me

is because we are selfish and wrapped up in material things."

"They tell me how to keep well and what to cook. They've even given me recipes."

"They warn me about world troubles, too. They tell me now that a well-known woman will die very suddenly and that the most terrible war the world has ever known is already under way."

But though she doesn't believe in rappings and such, Flora Marian does most of her writing on the back of a

two proposals.

The memorial project, as approved by the convention, calls for the appointment of a committee of nine by the Governor in the order of plums for the memorial to Virginia fighting men. This committee would be composed of two members each of the Senate and House of Delegates and five citizens. At least two of these table rappings are silly. I'm not smart and when I try to write or paint through my own efforts I can't do a thing."

"But my 'People' tell me that after they die they lose all jealousy and that their greatest joy is in helping people back here on earth. The reason they can't get through to me

is because we are selfish and wrapped up in material things."

"They tell me how to keep well and what to cook. They've even given me recipes."

## WANT TO KNOW WHY JACK WOULD NOT FIGHT WILLS

(By The Chicago Tribune)

NEW YORK, Sept. 5.—William Klein, attorney for Paddy Mullins, announced today that he would take legal action tomorrow and even go as high as the governor's office to ascertain why the New York State Athletic Commission had not forced the heavyweight champion, Jack Dempsey, to go through with the agreement to fight the negro challenger, Harry Wills, whom Mullins manages.

Klein and Mullins appeared before the boxing board today and after the lawyer had vainly tried to elicit some definite information as to the status of Wills, Commissioner McCormick arose and invited the interim referee, Klein and Mullins, to a private sancum of the boardroom.

In making his plea, the attorney stated that Mullins had challenged Dempsey on behalf of Wills and had posted a forfeit of \$2,500 with the commission more than a year ago. In July, 1922, Kearns signed an agreement for Dempsey to meet the challenger, but as yet no action has been taken to make the fight. Now, according to the attorney, this has been the case with the title holders. Klein was holding up this action but, according to the attorney, the commissioners were at a loss to answer

the question. Klein also asked why the board has allowed Firpo, an unknown to meet Dempsey before Wills. Once more the commissioners were non-committal and it was at this point that the threat was made to take the matter into the courts and Commissioner McCormick abruptly ended the session.

The Dempsey-Firpo fight is the chief topic of conversation in Buenos Aires, I. S. Lazard, a business man of that city, reported as he sailed on the United American Liner. Re-

turning to Argentina, he said:

"Dempsey is the idol of the house and

every one in Argentina is confident

that he will defeat the champion.

Betting on Firpo is heavy in Argentina, Lazard said, even the poorest

bettors risking future they can ill

afford to lose on their countrymen.

**TWO PLAYERS ARE SOLD TO GIANTS**

## V. M. I. PREPARES FOR GAME WITH MARINES SEPT. 22

LEVINGTON, Va., Sept. 5.—Head Coach Dickson took advantage of the opening of Virginia Military Institute August 21 to oust nine candidates for this year's "Flying Squadron." The initial practice was held on the same afternoon with all coaches and players present for a successful first day workout.

Practice takes place daily now at 3 p. m., on Alumni Field, the work consisting in handling the ball, and other exercises designed to loosen up muscles and improve the coordination of the players. Attended the R. O. T. C. camp when they participated in various forms of athletics, and others performed outdoor work tending to put them in excellent condition for the season's grind.

It is early to make any predictions, but the coaches feel that, barring accidents, the Cadets will be equal to one of the hardest schedules ever attempted by the V. M. I. team. Before a creditable showing can be made, however, the coaches must solve the problems calculated to make them sit up late at night. One is to fill the hole in the line caused by the loss of the guards and tackle. The other is to find a successor to Skeets Farley, varsity quarterback for the past two years. There is material for these positions, but most of the candidates lack Varsity experience, a fact which will make

it difficult to fill the position.

Mr. McElwain, driven by White, easily took the two year old slot from Earl Guy and Guy Richard.

it impossible to determine the Cadet line-up until the whistle blows for the kickoff against the Marine Corps for the second game of the season.

Coach Dickson's Freshmen are reporting for duty daily, and it is planned to start scrimmages between "Dick's" charges and the Varsity as soon as the men have rounded into shape. A number of prep school stars are included in the present fourth class, and it is believed that, besides taking care of their own schedule of their own, they will be capable of giving the Varsity plenty of opposition.

## FAVONIAN WINS GRAND CIRCUIT

HARTFORD, Conn., Sept. 5.—Favonian won the 2-07, the feature of the third day of the Grand Circuit meeting at Charter Oak Park today, defeating Murphy's Clyde the Great and Cox's McGregor the Great in two of the three heats. Favonian broke about one hundred feet from the wire in the third heat and Murphy and Cox had a pretty duel to the finish. Murphy's Clyde, the Great over by a nose.

H. C. Leonard won the three-year-old in straight heat. The judges informed the drivers in case after the first heat that they wanted a bit more action and they got it in the third heat when "Guy" made a bold bid to catch Hollywood Leonard in the stretch.

Duncan's men secured

only four hits off the South Carolina school "feecher" one of which was of a doubtful variety, but they made every one of the other count and won the affray. They are playing a wonderful brand of baseball is not to be disputed but evidently they are getting all the breaks of the game.

## Grandstand Gaff

Thanx Old Mud.

The soggy terrain at least kept the Duncans back one more day. Mud usually speeds up a skid but it proved a benefactor to the sliding Tobaccoists. Had the field been dry Raleigh no doubt would have been only a half game behind today.

What's Mazuma?

Post-season money evidently means nothing to those players of Murph's. The Greensboro sport writer thought the Virginians appeared like an inactive outfit board-sprinklers. Three straights to the Carrollites speaks plainly.

What's Raleigh Lucky?

It was doped out that Raleigh would take the majority of their long and badly arranged schedule from the Bulls but everyone figured that they would be stopped when Alec Gibson, the league's best bet, faced them on the mound. Gibson worked yesterday and the Capitals took both games as regularly as you like. Mr. Dempsey had to fill in straight heat. The judges informed the drivers in case after the first heat that they wanted a bit more action and they got it in the third heat when "Guy" made a bold bid to catch Hollywood Leonard in the stretch.

Duncan's men secured

only four hits off the South Carolina school "feecher" one of which was of a doubtful variety, but they made every one of the other count and won the affray. They are playing a wonderful brand of baseball is not to be disputed but evidently they are getting all the breaks of the game.

Breaks Against Locals.

Speaking of breaks, Lady Luck means as much to the Danville club these days as the first female representative in the Turkish palace pow-wows. The boys are not hitting up to their usual form but on numerous occasions during the past two weeks freak bounces and lucky stabs have robbed them of hits. The hurling corps also has been trudged around by fate. An untimely bobble or one well-placed safety takes the game out of their grasp.

Is It Possible?

The leading club on the down grade is always in worse shape than a winning club on the upgrade. To win the pennant, that almost was Danville's a short time back, the Murphites have not only to break an ill-willed spell of Kismet, but they must also outplay everything in the loop.

Today every club in the circuit is clamoring for a North Carolina series through and through. The Virginians must play a brand of ball that knows no defeat in the circuit to fill to annex second half laurels. One more defeat at the rate the Capitals are travelling means Greensboro will meet Raleigh on Sept. 17. Can the Murphs put the brakes on their skids and win all the remaining games, or are the brakes burnt out? The bunting on their answer to the query.

A Blurred Vision.

The Durham Sun dopes it comes along with the statement that Vann Stringfield, of the Gooch clan, is the best fielding stopper in the long history of Greensboro where Freddie Dorman is thought as much of as poison gas, on one occasion the star little short fielder right to the title of the classiest short fielder not only in the Piedmont but in the minors.

Vann Stringfield is an exceptionally good fielder and with improvement in his stickwork is scheduled for higher company, but to class him above Freddie Dorman is pure rubbish.

Eddie Regan's Pluck.

No matter how far in the hole the Virginians are there is always one youngster who gives his best. He whiffs frequently in the pinches and at other times falls down in his play but he never gives up. Eddie Regan's spirit in yesterday's game brought him the praise of the Greensboro sportswriter. In justice to the fleet little outer gardener it might be said he started on the mode of catch yesterday that he was criticised in this column on the same day for not making.

Raleigh Hilarious.

The minute the Duncans started their spurt for second half honors attendance began to pick up in the Old North State capital. Ordinarily about 400 turned out to see the Capitals in action, but now 2,000 wild fans piled through that turnsilts out practically every game the club plays at home. And they shouldn't complain. The combined strength of the Duncans is enough to draw the crowds. Now when the club plays out of town three Raleigh sport writers follow them so as to inform "the folks back home" just how they are creeping up on the Virginians.

Big Pow-Pow Today.

At last Bramham has rounded his directors together and they are meeting today in Greensboro to decide the fate of the club. The Duncans are in a state of dispute. There is no way in which more games can be taken from the Virginians, but considering prejudice and all surely, oh surely, no one could be so granite hearted as to take anything from the slipping Murphites.

She Isn't Sunk.

It seems almost impossible but the boys can't yet annex the pennant. Should they be victorious today the team will be out in force looking for them when they meet the Bulls here Friday and Saturday. Was it Eddie Rickenbacker or Barney Google that had a kid playing with his toy boat in the bathtub said "Don't give up the ship." Be it either of the two see what a race horse Barney has now and what a hero Eddie is.

## FIRPO DIRECT DESCENDANT OF OLD NOBILITY

By The Associated Press

ATLANTIC CITY, N. J., Sept. 5.—Luis Angel Firpo is a direct descendant of the Italian nobility of the twentieth century.

Shortly before he went to the dog park this afternoon for a sparring session in which he all but knocked out three of his helpers, Luis Angel received an official looking sheepskin, decorated with gold seals, a coat of arms and Latin writing.

Firpo sparred six rounds with Joe McCann, Frank Koebele and Natalie Pera. Firpo tore into the punch catchers with all the vim and energy of a power house. McCann managed to stand up under the blows but Koebele and Pera had to be taken up in the second rounds of their sessions.

# Virginians Drop Another; Capitals Take Two

## Gibson Proves Easy For Greensboro Club

GREENSBORO, Sept. 5.—Hitting the offerings of Dixie Gibson to all corners of the lot, Greensboro this afternoon handed her third straight defeat to the skidding Virginians, 9 to 4. The visitors were outclassed in every department of the game, and apparently lacked the pep that formerly characterized their play. Their defeat while Raleigh was taking both ends of a double bill places the Capitals in one game of the league lead.

Only in the sixth were the Tobago constables able to bunch their hits enough to jolt the run column. Leard walked and was forced at second by Smith. Trexler singled and Regan doubled, scoring Smith and Trexler. Dave Cochlin singled and Regan scored. In the next frame Gibson hit over the fence for the Murphyites final run. Dorman drew a pass, Leard sacrificed and Dorman was relieved by Crowe. Smith hit a single and Dorman, who came in on the run, made a sensational catch and doubled Dorman. In the fifth Eddie Regan induced a single, doubled; Carroll then brought up a base from the Greensboro stands.

The Capitalites' four runs in the first came after two were put in. As did the three in the eighth, Carroll, Conley and Pfeifer led the Greensboro attack throughout.

The second game was postponed on account of the poor condition of the grounds. A double header is on tap for tomorrow.

## Daily Puzzle

The drawing shows the arrangement of a network of driveways in a park. A motorist enters the park at A, and drives to B. Can you trace the shortest course for him to follow?

Yesterday's answer:

If a large and small automobile together cost \$8500, and five times the cost of the large is equal to twelve times the cost of the small, the large car cost \$6000, and the small car \$2500. (5 times 6000 equals 12 times 2500; namely, 30,000, and 6000 plus 2500 totals \$3500.)

## GARY CONFERS ON WAGE RATES

NEW YORK, Sept. 5.—Elbert H. Gary, chairman of the United States Steel Corporation, announced late today that his concern was conferring with heads of subsidiary companies on adjustment of wage rates. He declined to indicate whether upward or downward revision was contemplated, or whether the adjustment had any bearing on the elimination of the twelve hour day from the industry.

"We have been meeting today with our presidents on readjustments of wage rates," said Mr. Gary. "Of course, there are a great number of questions to consider. We have nothing whatever to publish about it, because readjustment is going on satisfactorily without any serious friction and nothing should be said to disturb our very good relations with our men. That is all I can say about that."
